CONNECTOR COVER ASSEMBLY

SLIM FLUSH MOUNT

This is a unique product. The Slim Flush Mount is for places where there is not a lot of space.

It is a true flush mount. Designed to fit easily onto any surface thickness, no adjustment is required.

Unscrew Assembly place a 50 Amp connector into the grooves of the bottom cover place top cover over bottom cover assembly & screw together. Secure mounting with the 2 screws and speed clips provided.

The connector cover assembly can be mounted in pairs, on top or beside each other for multiple fitting.

The front cover sits flat and has a tab that locks down on a mating 50Amp connector, when using the locking tab provided. The front cover helps to keep dust & moistures from the 50A electrical connector

contacts when not in use Complies with Australian Standard AS41775-2004 Lock & Clip.

When installing in battery boxes, the rear seals help prevent arc spark when pushing and pulling connectors apart. Designed for Anderson Style Connectors: Manufacture Connector Cover PA Nylon 66

Suitable for Vehicles, Trailers, Solar, battery boxes, Marine, Defence applications, etc.

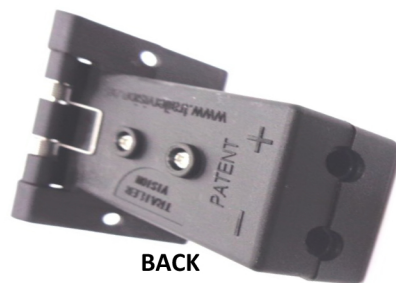

Mates with TVN328993-50 TVNV328993-50 Volt Meter TV-146375-50 (50A Connector Not Included)
