

Distribution Hub

ADHUB150

Tackle electrical projects like a pro with the Alvolta Distribution Hub. With 4 AMI/Midi Fuse and 6 ATO/ATC Fuse connection points, the Distribution Hub offers 10 circuits to provide power to all your essential vehicle accessories. The nickel-plated copper terminals ensure maximum conductivity, while the flame-retardant PBT material and sealable PC cover provide extra protection for your circuits.

Featuring four AMI fuses and 16 ATO fuses in various amps and convenient labelling options, this Distribution Hub is perfect for any DIY enthusiast. Whether you're hitting the open road in your RV or powering up your boat for a day on the water, the Alvolta Distribution Hub will erase unsightly cables and keep your electronics up and running smoothly.

Built for power and designed by experts, Alvolta has the quality you can trust.

Box Includes:

- Distribution Hub
