

Heavy Duty Hex Crimping Tool - 10mm² - 120mm² AT120MH

Alvolta's range of high quality tools are the perfect addition to every tradesperson's toolkit. Designed with practicality in mind, Alvolta's selection of tools helps the professional tradesman complete jobs to an excellent standard without compromising on convenience.

The Alvolta Heavy Duty Hex Crimping Tool is designed to crimp large lugs. Featuring a hexagonal, adjustable crimping cavity, the jaws of this crimper can be rotated to suit 8 different sizes of lugs between 10-120mm², minimising the tools required for completing jobs. The adjustable compound action design puts more crimping power into each squeeze, reducing the effort required for cable crimping.

Minimise job time and effort, and maximise productivity with the Alvolta Heavy Duty Hex Crimping Tool.

Suitable for:
